MISCELLANEOUS SERVICE OFFERINGS

13.7 DID/AIOD SERVICE

13.7.1 Direct Inward Dialing Service to Customer Premises-Located Switching Systems

A. Additional General Regulations

1. Direct Inward Dialing Service to customer premises-located switching systems is furnished subject to the availability of facilities and the availability of telephone numbers.
2. The service includes the central office switching equipment necessary for Direct Inward Dialing from the exchange and long distance message telecommunications network directly to stations and attendant positions associated with customer premises-located switching systems.
3. The service must be provided on all lines in a trunk or Network Access Line group arranged for inward service. Routing of calls to selected numbers within the Direct Inward Dialing number group over a separate trunk or Network Access Line group is not contemplated.
4. The charges for the service, as provided in B., following, are in addition to all applicable charges for PBX Service with which this service is associated, and the applicable Network Access Line and connecting arrangement charges as provided in Section 4 of this Tariff.
5. Operational characteristics of interface signals between the Telephone Company-provided connecting arrangements and the customer-provided switching equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards of service.
6. The Telephone Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Telephone Company render any facilities provided by a customer or authorized user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
7. Direct Inward Dialing telephone numbers are normally provided on a consecutive-number basis. DID numbers may be provided on a nonconsecutive basis when such service provision is acceptable to the customer and the Telephone Company and is within the normal limitations of the serving office. The Telephone Company retains its rights to the administration and use of telephone numbers as described in Section 17, of this Tariff.

MISCELLANEOUS SERVICE OFFERINGS

13.7 DID/AIOD SERVICE-(Continued)

13.7.2 Automatic Identified Outward Dialing Service From Customer Premises-
Located Switching Systems-(Continued)

A. Additional General Regulations

1. Automatic Identified Outward Dialing (AIOD) Service from customer premises-located switching systems is furnished subject to equipment and facility limitations and the availability of telephone numbers.
- (CP) 2. The service includes the central office equipment necessary for the identification of outgoing Long Distance Message Telecommunications Service messages by station number. The billing of messages by station number is the responsibility of the interexchange carrier providing the Long Distance service connection. The billing of messages by station is limited to the cases where the interexchange carrier subscribes to Southwestern Bell Telephone Company's Billing and Recording service as provided in Section 8 of the Access Services Tariff.

The service provides for the identification of outgoing Long Distance Message Telecommunications Service messages and the billing of these messages by station number where the Long Distance Message Telecommunications Service is provided by Southwestern Bell Telephone Company.

3. The service will be provided on calls placed over PBX trunks or Network Access Lines from the local serving central office only. Where AIOD is not available in the customer's local serving central office, it may be provided from a distant serving central office subject to the availability of facilities. In such a case, the PBX trunks or Network Access Lines over which outward calling takes place must be served from the AIOD serving office. In addition, Type 322 interoffice channels, interoffice channel terminals and/or interexchange channels and interexchange channel terminals, as provided in Section 2 of the Private Line Service Tariff, are applicable for the required Data Link.
4. The service must be provided on all lines in a trunk or Network Access Line group. Where the service is requested and provided or more than one trunk or Network Access Line group, each such group will be considered a separate service in determining charges.

7. PBX - DID/AIOD Service (Cont'd)

7.2 Central Office Portion of Automatic Identified Outward Dialing (AIOD) Service from Customer-Premises Located Switching Systems

7.2.1 Additional General Regulations

- (A) AIOD service from customer-premises located switching systems is furnished subject to equipment and facility limitations and the availability of telephone numbers and appropriate equipment being provided in the customer-premises equipment.
- (B) The service includes the central office equipment necessary for identification of outgoing long distance message telecommunications service (LDMTS) messages and the billing of these messages by station number.
- (C) The service is normally provided on calls placed over PBX trunks or network access lines from the local serving central office. Where AIOD is not available in the customer's local serving central office, it may be provided from a distant serving central office subject to the availability of facilities. In such a case, the PBX trunks or network access lines, over which outward calling takes place, must be served from the AIOD serving office; and tariff charges for foreign central office, foreign zone or foreign exchange trunks are applicable. In addition, Type 313B interoffice channels and/or interexchange channels as provided in Section 2 of the Private Line Service Tariff, are applicable for the required Data link.
- (D) The service must be provided on all lines in a trunk or network access line group. Where the service is requested and provided on more than one trunk or network access line group, each such group will be considered a separate service in determining charges.
- (E) The charges for the service as provided in 7.2.2, following, are in addition to all applicable charges for PBX service with which this service is associated or the applicable network access line and connecting arrangement charges as provided in Section 8 of this tariff.
- (F) Operational characteristics of interface signals between SWBT-provided connecting arrangements and the customer-provided communications system with switching equipment must conform to the regulations SWBT considers necessary to maintain proper standards of service.
- (G) SWBT shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of SWBT, render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
- (H) The rates and charges for the service contemplate the use of standard SWBT equipment and serving arrangements.

LOCAL EXCHANGE TARIFF
4th Revised Sheet 1
Replacing 3rd Revised Sheet 1

SOUTHWESTERN BELL TELEPHONE COMPANY

LOCAL EXCHANGE TARIFF

1.1 GENERAL

This Tariff applies to local exchange telephone service furnished or made available by the Southwestern Bell Telephone Company in the State of Arkansas and is governed by the General Exchange Tariff which is hereby made a part of this Tariff. Unless otherwise specified, the charges quoted are for periods of one month and are payable monthly in advance.

1.2 RATES

1.2.1 The basic exchange rates that apply for major exchange services are shown following by rate groups. The total number of exchange access arrangements (EAA) included within the exchange determines the rate group and rates for each exchange unless otherwise specified in the Local Exchange Tariff.

Reclassification of exchanges from one rate group to another because of natural growth or loss of Exchange Access Arrangements (EAA) shall be made only upon the approval of the Arkansas Public Service Commission.

Where an exchange or zone has EAS (Extended Area Service) an EAS increment may be applicable for the provision of this service. This increment is in addition to the basic exchange rates applicable to that exchange. EAS increments are non optional and are applicable to all classes of exchange access service in an exchange with the exception of measured service.

(AT) The Telephone Company may during certain promotional periods temporarily discount rates and/or charges as provided for in Section 25 of the General Exchange Tariff.

Issued: September 27, 1990

Effective: October 4, 1990

By R. McRae Geschwind, President - Arkansas
Southwestern Bell Telephone Company
Little Rock, Arkansas

No supplement to this tariff will be issued except for the purpose of cancelling this tariff.

LOCAL EXCHANGE TARIFF
Corrected Amended 9th Revised Sheet 2

SOUTHWESTERN BELL TELEPHONE COMPANY

LOCAL EXCHANGE TARIFF

1.2 RATES - (Continued)

1.2.1 - (Continued)

(RT) Basic Exchange Service, as offered in this tariff, is comprised of the following:

Exchange Access Line- Serving Central Office line equipment, all outside plant facilities needed to connect the serving central office with the customer premises. These facilities are Telephone Company-provided and maintained and provide access to and from the telecommunications network for message long distance service and for local calling appropriate to the tariffed use offering selected by the customer.

(AT) Touch-Tone Calling Service - Provides the capability for the origination of calls by means of instrumentalities equipped for tone-type address signaling. Touch-Tone Calling Service is available to individual and party line service.

(AT) 1.2.2 Rates for city service shown in the rate schedule are applicable within the base rate area which is the area shown on the related base rate area map for the exchange or zone. Where city service is furnished outside of the base rate area urban mileage charges are applicable as specified in Section 18 of the General Exchange Tariff, except in certain Locality Rate Areas(1) as specified in 1.3.

1.2.3 Rates for suburban service shown in the rate schedule are subject to provisions specified in Section 34 of the General Exchange Tariff.

1.2.4 Rates for rural service shown in the rate schedule are subject to provisions specified in Section 27 of the General Exchange Tariff.

(AT) (1) Locality rates will be eliminated for one-party customers at the end of an exchange's conversion to single-party service. Locality rates for two-party line customers will be eliminated when the customer's service is upgraded to one-party service. One-party rates as specified in Section 1.2.5 of the Local Exchange Tariff will be applicable at that time.

Issued: February 25, 1994

Effective: March 9, 1994

By Michael T. Flynn, President - Arkansas
Southwestern Bell Telephone Company
Little Rock, Arkansas

No supplement to this tariff will
be issued except for the purpose
of cancelling this tariff.

SOUTHWESTERN BELL TELEPHONE COMPANY
LOCAL EXCHANGE TARIFF

1.2 RATES - (Continued)

1.2.5 Schedule of Rates by Rate Groups - (Continued)

- (1) Applicable where service is offered.
- (2) Refer to the General Exchange Tariff for rules, regulations and other service rates for use with residence service.
- (3) Applicable where facilities permit service to be offered.
- (4) This service may be used with residence single line telephone service, key telephones, PBX systems or any other type of terminal equipment.
- (5) Includes the first 30 direct dial local calls.
- (6) Trial offering.
- (7) See 1.5.3 for applicable usage charges.
- (8) Applicable only where Lifeline Measured 1-Party Service is not available. Offering will be replaced by Lifeline Measured 1-Party Service when facilities are available. See 1.5 for terms and conditions of this offering.
- (9) The priority provisioning and restoration of services offered under this tariff relative to the National Security Emergency Preparedness (NSEP) Telecommunications Service Priority (TSP) System shall be pursuant to the regulations and rates as set forth in Section 2.2.20 of the Private Line Service Tariff.
- (AT) (10) With the effective date of this tariff, these rates are grandfathered for existing rotary customers at existing locations.
- (AT) (11) This service will be eliminated as an exchange converts to a single-party exchange.

For application of this tariff, such regulations, rates and charges shall be interpreted to apply on a "per request, per line/trunk" basis.

Issued: February 11, 1994

Effective: March 9, 1994

By Michael T. Flynn, President-Arkansas
Southwestern Bell Telephone Company
Little Rock, Arkansas

No supplement to this tariff will be issued except for the purpose of cancelling this tariff.
